FSMOne.com Makes Account Opening Process Instant with MyInfo Integration

SINGAPORE (15 January 2019) – FSMOne.com, a leading online fintech investment platform offering funds, stocks, ETFs, bonds and insurance, has integrated MyInfo to simplify the process for customers opening investment accounts on the online investment platform.

MyInfo is a service launched by Government Technology Agency (GovTech) that enables SingPass users to manage the use of their personal data when transacting online with participating government agencies and commercial entities.

Investors who are interested to open an account on FSMOne.com will now be able to retrieve their personal data by authenticating through SingPass, reducing investors' time and effort required to manually complete the online application forms. Investors no longer need to submit multiple copies of supporting documents. Furthermore, accounts opened using information from MyInfo will be approved instantly, enabling customers to start investment transactions on FSMOne.com without any lag time. FSMOne.com is one of the first online investment platforms in Singapore to integrate MyInfo into its offerings.

"Making the account opening process as seamless and convenient as possible for our customers has been a top priority. With the integration to MyInfo, investors can now open an account with us almost instantly, without having to go through the usual trouble of filling up their personal details or having to submit supporting documents. FSMOne.com will continue to work on ways to make the investment process even more seamless for our customers," says Mr Jean Paul Wong, General Manager, FSMOne.com.

"FSMOne has also been working on other initiatives to streamline the investment process and to bring more convenience to our customers. For instance, FSMOne.com customers can now utilise the new PayNow Corporate payment service to easily transfer investment monies to their cash account using iFAST's Unique Entity Number (UEN) ID," says Mr Jean Paul Wong.
